

NDT Baby Treatment with Lois Bly, MA, PT

November 2-3, 2012

Phoenix, Arizona

KidzSPOT Pediatric Therapy is proud to present a 2-day Infant Course Based on NDT Principles with Lois Bly, MA, PT.

This two-day course is designed for experienced physical and occupational therapists and speech language pathologists currently working with babies. Lecture information will focus on NDT Infant Treatment Principles. Labs and videotapes will be used to problem solve impairments for infants in general and for specific infants who will be treated in demonstration sessions. Labs with dolls will augment the therapist's understanding of infant treatment techniques. Participants should wear comfortable clothes for labs. **The book by Lois Bly, *Baby Treatment Based On NDT Principles* will be used as the text. (Please visit www.loisbly.org for ordering information and link)**

Objectives: At the completion of the course participants will be able to:

1. Identify and list NDT principles of infant treatment
2. Identify and list stress signs
3. Describe the importance of play as a modality for infant treatment
4. Observe and critically analyze demonstrations of baby assessment, treatment techniques and sequences.
5. Identify system impairment in babies with varied presentations while watching videotapes of infant assessments and live treatment demonstrations.
6. Reproduce treatment facilitation techniques with dolls

Each participant requires a doll, approximately 24" long. You can order the dolls through www.monamiedolls.com or by phone 559-448-4640. Please order 4-6 weeks prior to the course. They are done by hand and take time to put together.
